doj:

i do not support the current legislation against microsoft- i think it falls short of actually stopping their monopoly in many areas and will not truly open their interface to competing companies, one example:

No part of the PFJ obligates Microsoft to release any information about file formats, even though undocumented Microsoft file formats form part of the Applications Barrier to Entry (see "Findings of Fact" ?20 and ? 39).

i urge you to please reconsider this point.

thank you for your time,
